# TABLE OF CONTENTS

**Vision and Mission**

**Event Overview**

**Competition &  
Team Structure**

**Uniqueness & Impact**

# VISION AND MISSION

## Vision

To build a stronger competitive programming culture among CADT freshmen by encouraging individual problem-solving, confidence, and algorithmic thinking.

## Mission

To organize a full-day individual coding championship that challenges students through multiple rounds, including logic solving, algorithm challenges, debugging, and final advanced problems.

# WHY CFCC 2026?

- Continue the legacy of CFCC 2025
- Improve the competition format based on last year's experience
- Give freshmen a fair individual platform to test their coding ability
- Strengthen C programming and algorithm foundations
- Identify students with strong potential for future competitions and volunteer programs

# **EVENT OVERVIEW**

## **Information**

- Event: CADT Freshman Coding Championship (CFCC) 2026
- Format: Full-day individual competition
- Target Participants: 150 (CADT freshmen)
- Platform: HackerRank
- Language: C

# WHAT IS DIFFERENT FROM LAST YEAR?

## CFCC 2025

- Individual + Team format
- Standard algorithm problems
- Focused on strings, arrays, sorting, grids, and basic pathfinding

## CFCC 2026

- Fully individual format
- New 3-round problem structure:
  - Algorithm Challenge
  - Debugging Battle
  - Final Boss Challenge
- More realistic coding experience

# AGENDA

| Time                | Activity                      |
|---------------------|-------------------------------|
| 8:00 am - 8:30 am   | Registration                  |
| 8:30 am - 8:40 am   | Opening Speech                |
| 8:40 am - 8:45 am   | Rule Explanation              |
| 8:45 am - 10:15 am  | Round 1: Algorithm Challenge  |
| 10:15 am - 10:30 am | Break                         |
| 10:30 am - 11:45 am | Round 2: Debugging Challenge  |
| 11:45 AM - 2:00 PM  | Lunch                         |
| 2:00 PM - 3:30 PM   | Round 3: Final boss Challenge |

\*Agenda is subject to change upon request.

# **COMPETITION & TEAM STRUCTURE**

## **COMPETITION FORMAT**

- Round 1: Algorithm Challenge
- Round 2: Debugging Battle
- Round 3: Final boss Challenge

# TEAM STRUCTURE

## Technical

Frontend: 3 people (1 leader)

Backend: 3 people (1 leader)

## Operation

Marketing: 3 people (1 leader)

Business Development: 3 people (1 leader)

# UNIQUENESS & IMPACT

## UNIQUENESS

- New 3-round problem structure
- Algorithm Challenge for logical problem-solving
- Debugging Battle for fixing broken code
- Final Boss Challenge for advanced strategy
- Realistic programming experience

The background features abstract geometric lines in orange and dark blue. These lines form various rectangular and stepped shapes, some overlapping, creating a modern, architectural feel. The lines are thin and extend across the top and bottom of the slide.

# IMPACT

- Encourages independent problem-solving and confidence.
- Helps participants think faster and stay calm under pressure.
- Gives students experience with solving, debugging, and improving code.
